Subject: Wireless Communications Restrictions, Section 22, Chapter XIII of Public Law 32-181

All Department and Agency Heads, which are not exempted from this budgetary provision, are encouraged to review Section 22, Chapter XIII of Public Law 32-181 regarding restrictions placed in the application of wireless communication. The key points of this provision are:

1. No government of Guam funds, regardless of funding sources shall be expended for the use of cellular telephones, cellular services and other wireless telephone services, unless such cost is reimbursed by federal grants and other non-governmental sources.
2. No appointing authority, manager, supervisor or public officer in any branch of the government of Guam shall require a government of Guam employee to maintain at his or her personal expense any form of wireless communication to include phones, tablet or desktop or laptop computer unless agreed by the government of Guam employee.

Restrictions in the usage of wireless communication have been with the government of Guam since FY 2003, pursuant to Public Law 26-152. All non-exempted department and agency heads are requested to continue their compliance with this budgetary requirement.
