Re: SUBSTITUTE BILL NO. 276-36 (COR) - AN ACT MAKING APPROPRIATIONS FOR THE OPERATIONS OF THE EXECUTIVE, LEGISLATIVE, AND JUDICIAL BRANCHES OF THE GOVERNMENT OF GUAM FOR FISCAL YEAR ENDING SEPTEMBER 30, 2023, MAKING OTHER APPROPRIATIONS, AND ESTABLISHING MISCELLANEOUS AND ADMINISTRATIVE PROVISIONS

Hafa Adai Madame Speaker,

Transmitted herewith is Substitute Bill No. 276-36 (COR) (“the Budget Bill”), which I am signing into law as Public Law 36-107.

Though my administration is committed to implementing the Budget Bill, I must express concern about several provisions in the bill that continue the Legislature’s recently adopted practice of appropriating so-called “excess revenues.” Government financial management involves principles and protocols that address complex accounting and cash management realities. This includes the common circumstance wherein payables may not accrue in the year expenses have been incurred, which occurs frequently in the ordinary course of government accounting. These delayed accruals occur for a variety of reasons and in diverse circumstances – federal fund write-offs, belated payables submitted by agencies over which the administration has no direct authority or oversight, or canceled and reissued solicitations. The government pays government obligations daily for authorizations and appropriations made over time, including present payables for expenses incurred in prior years.

By the same token, some revenues are received in subsequent years than the fiscal year in which they are reported, resulting in limited cash flow despite reported “excess” collections. It is for this reason that, time and again, I have cautioned the Legislature against appropriating so-called “excess revenues,” which remain fluid until such time an audit is completed for the period and actual earned revenues are identified. This practice by the Legislature, which continues in several appropriations in this Budget Bill, relies on a budgetary fund balance, which reflects simply the total amount accumulated from prior years, instead of the generally accepted accounting principles (“GAAP”) fund balance, which accounts for the complex timing of recognition of revenues and
expenditures. Ignoring our administration’s fiscal policy based on GAAP carries the risk of blind spending before financials are audited, and threatens the resurgence of the decades-old deficit our administration worked hard to retire. Though our Administration will work to implement this Budget Bill, it is important for the Legislature to observe sound accounting principles in its appropriations, and to refrain from continuing to appropriate from “excess revenues” prior to the audit.

Despite the imprecision in the Budget Bill’s approach to government financial management, I applaud the senators who passed this Budget Bill for funding the Educator Pay Plan implemented by the Department of Administration (“DOA”) with my approval in May 2022. While the Budget Bill reflects that the Legislature “adopted” the 2022 Educator Pay Plan, formal adoption of the plan by the Legislature was not necessary.

For thirty years, Guam law has delegated the responsibility to assess and update government pay schedules to the DOA. In Public Law 21-42 Part V Section 13, the Guam Legislature adopted and implemented a unified pay schedule, a uniform system of position classification, and salary administration for public employees through the Hay System, a broadly accepted job evaluation technique used in determining the pay structure in organizations. In adopting the Hay System, the Legislature further provided that the internal equity and external competitiveness of the plan should be reviewed at least every three (3) years, and that ongoing communication and training was a critical component of administering the compensation policy. 4 GCA § 6301 (c) and (f). Administration of the pay plan based on Hay methodology was assigned to the Director of Administration, who, along with the Judicial Council, was further charged with the responsibility to establish policies and procedures for implementation of the compensation policy in their respective jurisdictions. 4 GCA § 6302 (a) and (c).

The Legislature further authorized the Director of Administration, at his discretion, to delegate the responsibility for assessment and updating of the employee pay schedules to certain agencies, and to coordinate training and resources to support such delegation. Specifically, Section 4101.1 provides in relevant part as follows:

§ 4101.1. Responsibilities of the Director of Administration Regarding Personnel Policy of the Government. The Director of Administration shall perform the following functions:

(h) Coordinate the fielding of necessary computer software and the training of personnel to allow the agencies, departments and public corporations listed in § 4105(a) of this Title to assess and update the unified pay schedule required by § 6302(a) of this Title;

(i) Delegate, at the Director’s discretion, such authority under such terms as are appropriate, to the agencies, departments and public corporations listed in § 4105(a) of this Title to assess and update the unified pay schedule required by § 6302(a) of this Title[.]
The Guam Education Policy Board is among the government entities designated in 4 GCA § 4105(a), to which the Director of Administration may, at his discretion, delegate the authority to update its own pay plan. However, no such delegation has been made.

Though the Legislature adopted the unified pay schedule created utilizing the Hay System in 1992, Title 4 authorizes DOA to assess and update government pay schedules administratively, and does not otherwise require legislative approval of such updates through the Administrative Adjudication Law or otherwise. The delegation of authority to the DOA has never been repealed or amended, including by the FY22 Budget Act. Therefore, the DOA retains its authority to assess and update government pay schedules as provided in statute.

Lt. Governor Josh Tenorio and I believe that proper compensation is a critical component of employee recruitment and retention. More importantly, it is just. Paying our government employees decent and fair wages contributes to their quality of life, their employment satisfaction, and, ultimately, their dignity. Our teachers have waited for too long to see this increase in their wages. This update is not a gratuity – it is based on accepted methodology for calculating employee compensation. It is what our teachers deserve.

It is disheartening that some of the senators who voted against this Budget Bill vocally opposed our administration’s May 2022 implementation of the Educator Pay Plan. Some further suggested the rate of the implemented increases should have been lower than those approved. The lack of support for our teachers from these senators is deplorable. It demonstrates a fundamental lack of respect and compassion for our teachers. I am encouraged by the actions of the senators who passed this Budget Bill, disregarding the political circus stirred up by its detractors, and carrying funding for the Educator Pay Plan forward into the next fiscal year. While adoption of the plan was not necessary, assuring funding of the plan was crucial. For this, you have my thanks, and the thanks of our island’s educators.

Notwithstanding the noted concerns, we are committed to make this budget work as we have done with other budgets since taking office. Accordingly, I sign Substitute Bill No. 276-36 (COR) into law as Public Law No. 36-107.

Sensemente,
